ALLANS AIR SPACE

ROTARY CONNECTS THE WORLD

Hello Everyone,

Well what a weekend, Christine and I went to the District Changeover for Rotaract. Around 100 young Rotaractors, Rotarians and guests attended the event. It was held at the lovely Kew Golf Club overlooking the fairways; we saw the three clubs present their reports and then handed over the President's collar. We were then introduced to the new Rotaract club and its members to the district. The club is from the Manningham cluster (called Manningham Rotaract)

It was very pleasing to see and hear the younger generation perform on the day, makes you believe that the future is in good hands.

The club fees are now due and payable. If you have any queries regarding the fees, see Brian.

Rob needs speakers and vocational visit ideas for places to go to – please see him urgently if you can assist.

I was thinking of having a computer expert come along to Rotary to give us some social media lessons, what do you think?

Anybody interested in going to the District Public Image and Communication seminar on the 2nd of August at the Melbourne Baseball Centre, Canterbury Road Box Hill - see Allan.

Did you know that the first man on the moon was also the first Rotarian on the moon?

Yours in Rotary

Allan Tierney

President 2019 /2020

"That Was The Week That Was"

Thursday 18th July 2019

As our first meeting with President Allan was a combined Board and Committee Meeting it appears that there is no scribe's report.

In lieu of this and in recognition of the 50th Anniversary of the Moon Landing here is some Lunar Humor to fill the space!

Did you hear about the restaurant on the moon?

Great food,
no atmosphere.

Trump wants to go to the moon within the next 5 years.

If everyone donates a dollar, we can shoot him up today.

Buzz Aldrin and Mike Collins were invited to the White House to celebrate the 50th anniversary of the moon landing...

Buzz got to enter the White House and meet with the president, but Mike had to spend the entire visit driving in circles around the White House

Scientists have discovered water and ice on moon.

Now all we need is some quality liquor and we are set.
